ADDENDUM #5
FC-5955, HEALTH CARE SERVICES AT HARTSFIELD-JACKSON ATLANTA
INTERNATIONAL AIRPORT

Answers to Questions for Inclusion in Addendum #5

1. **QUESTION:** The Atrium – not being that familiar with the airport I am assuming that this area is the highest trafficked:

- a. How many people go through here annually/monthly?
- b. Is this an area that majority of the concourses have access to?

RESPONSE:

- a. We do not have a count of the number of people in the Atrium. It is pre-security so it is open to the public (including those meeting/greeting flights and airport employees). We calculate *passenger* traffic in the terminal (atrium) as those with flights that originate or terminate in Atlanta and are not leaving on concourse F; or about 28% of our total passengers. This equates to 26.5 million passengers annually and approximately 2.2 million monthly.
- b. The Atrium is located in the main terminal where ticketing and baggage check/baggage claim occur. It is connected to the other terminals through the underground plane train.

2. **QUESTION:** How much time does the average commuter spend in the airport between flights?

RESPONSE: The latest survey indicated a dwell time of 100 minutes.

3. **QUESTION:** Are the services below consistent with your intent or is it your intent to provide services on a less complex basis?

- a. Acute Illness
- b. Trauma
- c. Minor Surgical Care
- d. Lab Services
- e. Miscellaneous Services

RESPONSE: Please refer to Exhibit A: Scope of Services in the Concessions Lease Agreement included in the Request for Proposal document.

4. **QUESTION:** Given the fact that the RFP now included multiple locations, it is entirely possible that a proponent might structure its proposal to provide for the required ACDBE participation to flow from the operation of business at one of the two locations. If this occurs, and the business which is providing the ACDBE participation subsequently fails, how will the ACDBE requirements of the Concessions Lease Agreement be applied to the other location being operated by a non-ACDBE business?

RESPONSE: It is the responsibility of the Proponent to meet the ACDBE goal for this project. The ACDBE goal for this project is 36%.
